WORK EXPERIENCE

Launch Digital Marketing (Cars Commerce Brand) – Remote Senior WordPress Developer

Oct 2019 – Present

- **Unique WordPress Themes:** Transform client-approved Figma designs into dynamic and visually stunning WordPress themes, ensuring seamless integration of design elements.
- **Custom Gutenberg Blocks:** Innovate and create customized Gutenberg blocks via ACF Blocks to empower effortless and branded page editing experiences. Architect personalized solutions and integrations tailored to project specifications, optimizing functionality and performance for enhanced user experiences.
- **Website Launches & Revisions:** Spearhead website launches with precision and finesse, executing live site revisions with agility and attention to detail to deliver unparalleled digital experiences.
- **Code & Plugin Challenges:** Diagnose and swiftly resolve coding complexities and plugin conflicts, fortifying website stability and reliability for sustained performance.
- **Support Requests:** Proactively monitor and address support tickets, ensuring swift resolution and client satisfaction.
- **Post-launch Training & Feedback:** Provide comprehensive post-launch training sessions and offer insightful feedback on project scopes and designs, empowering clients and driving continuous improvement.
- **Stakeholder & Client Engagement:** Foster seamless collaboration among stakeholders, leveraging diverse perspectives to achieve shared objectives. Cultivate open communication channels with clients, fostering clarity throughout the project.

Dealer Inspire (Cars Commerce Brand) – Remote Website Developer

Mar 2017 – Oct 2019

- **Brand-boosting Websites:** Elevated brand visibility and user engagement by crafting visually captivating WordPress websites from meticulously designed Photoshop/Sketch mockups.
- **Tailored Digital Experiences:** Delivered immersive digital experiences tailored precisely to client specifications, driving conversions and resonating with target audiences.

- **Front-end Innovation:** Pioneered innovation within the organization by mastering cutting-edge front-end development techniques, positioning the company as a leader in digital excellence.
- **Conflict Resolution:** Ensured flawless website functionality and unparalleled user experiences by expertly diagnosing and swiftly neutralizing code and plugin conflicts.
- **Rapid Support:** Offered lightning-fast support to developers, promptly resolving post-go-live tickets for websites, ensuring seamless operations and client satisfaction.
- **Project Execution:** Demonstrated exceptional precision in executing complex projects, consistently surpassing expectations and setting new standards for excellence.

The Richland Group – Fort Smith, AR

Aug 2015 – Mar 2017

Lead Web Developer

- **Custom WordPress Themes:** Engineered bespoke WordPress themes from client-approved Photoshop designs, integrating HTML/CSS/PHP/JavaScript elements to deliver tailored digital solutions.
- **Website Editing:** Executed precise website edits according to client specifications, improving user experience and reinforcing brand identity.
- **Theme Customization:** Optimized existing themes with meticulous customization using child themes, augmenting website aesthetics and functionality for heightened engagement.
- **Account Setup Procedures:** Streamlined account setup procedures via WHM or Plesk, expediting website deployment and enhancing operational efficiency.
- **Conflict Resolution:** Proactively diagnosed and resolved code/plugin conflicts and server setup complexities, ensuring uninterrupted website functionality and seamless user experience.

PROJECTS PORTFOLIO

- **Rose Farm Supply** (<https://www.rosefarmsupply.com>): Customized WooCommerce platform with AJAX search/filtering and a detailed payment calculator, improving user navigation and purchase experience.
- **React Physical Therapy** (<https://www.bereact.com>): Implemented AJAX functionality on the "Resources" page, optimizing content delivery and user experience.
- **The Rescue Vets** (<https://www.therescuevets.com>): Orchestrated integration with PetFinder, enhancing user engagement and adoption visibility. Implemented JavaScript libraries for efficient filtering, sorting, and animations, elevating site interactivity.
- **The Weaver Companies** (<https://www.theweavercompanies.com/locations>): Developed a custom plugin utilizing Advanced Custom Fields and MapBox API for a filterable map section, enhancing location visibility and user interaction.
- **Other WordPress Builds:** Championed WordPress projects, delivering tailored solutions for diverse clients such as Outsell, NCTV17, and more. Leveraged expertise in web development to drive functionality and user engagement.
